

ALG5 BREATHING AIR FILTER PACK (4 PERSON)

SAFEAIR™ KEEPING YOUR RESPIRATORY AIR SAFE

(Perfect Use within Spray Booths & Industrial Operations)

Safewell's ALG5 Breathing Compressed Air Purification Unit is used by operatives working in hazardous environments. Our ALG5 purifies compressed air for respiratory protection to assure the immediate safety and long term health of operatives. Our ALG5 also ensures compliance with the legal safety requirements such as COSHH L5 Approved Code of Practice. The ALG5 is designed and built to purify compressed air to breathing air quality in compliance with all relevant international standards. **Our ALG5 can be used in various environments where CO² levels at the intake of the compressor is already <500ppm and there is a Fridge Dryer with Pressure Dew Point of +3°C.**

FEATURES & BENEFITS
