

AIR QUALITY TESTING, MAINTENANCE AND LIFECYCLE SUPPORT

KEEPING YOU AND YOUR
PROCESS SAFE

Dedicated ongoing lifecycle service support for the Safewell® SafeAir™ equipment used in safety critical processes

Safewell Solutions provides a complete site audit and risk analysis of your existing compressed air system and helps our clients develop a holistic safety management process. This applies to compressed air used for respiratory protection and also critical process use such as food and pharmaceutical manufacture. Ambient air quality studies can also be carried out.

Clients: Operators, Sub-Sea Companies,
Major Manufacturing Organisations

RISK MANAGEMENT

- Analyse all factors influencing safety outcomes to help customers implement best practice.
- Enhances corporate reputation.
- Increases Awareness of lifecycle safety.
- Ensures all equipment meets the requirements of relevant standards (BS EN 12021:2014 and ISO 8573-1).
- Complete Equipment Service History and Traceability.

LIFECYCLE MAINTENANCE

- To ensure product safety, reliability and to reduce downtime we offer full lifecycle servicing, maintenance, calibration and proof testing of the following SafeAir™ products:-
- ALG10 Breathing Air Purification Units
- Air Purity Analysers Mk 1, Mk 2, Mk 3
- ATEX Breathing Air Compressor
- ATEX Portable Breathing Air Purifying Unit
- Donaldson range of compressed air filtration dryers.

ALL SERVICE WORK IS CARRIED OUT BY OUR TRAINED AND COMPETENT PERSONNEL USING ORIGINAL SPARES
