

ATEX ALG10-P PELI CASE BREATHING AIR PURIFIER

SAFEAIR™ KEEPING YOUR RESPIRATORY AIR SAFE AND REDUCING BUSINESS RISK

The Safewell® SafeAir™ ALG10-P breathing air purification system is used by operatives working in hazardous environments to purify compressed air used for respiratory protection. Compressed air purification is essential to assure the immediate safety and long term health of operatives and to ensure compliance with the legal safety requirements such as COSHH L5 Approved Code of Practice. The ALG10 is validated to purify compressed air to breathing air quality in compliance with all relevant international standards, including Pharmacopée Européenne; DIN EN 12021; DIN EN ISO 7396-1; BS4275; ANSI/CGA G.7.1; Z180, 1 M85; AS2299-1979; NZL5813.

FEATURES & BENEFITS

SAFETY WITH LONG TERM HEALTH BENEFITS

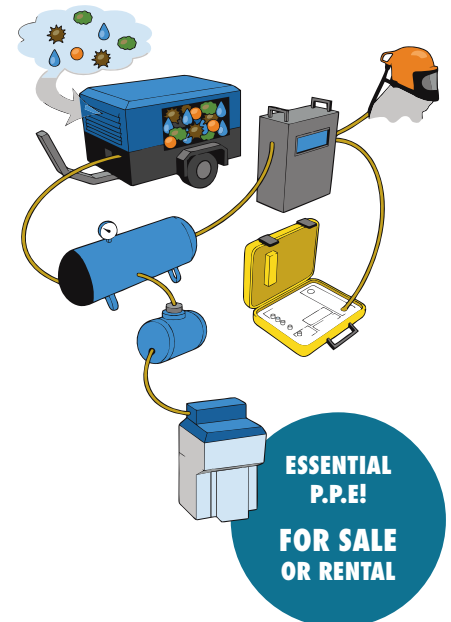

- Low cost of ownership
- Long return on investment – typically 10-15 years
- No downtime – High reliability
- Provides medical quality compressed breathing air
- Acts as a safety barrier for the lungs preventing health issues
- Standard units for 2 operatives
- 6 Stage Filtration and Purification
- Removal of particles (validation to ISO12500 and Class 1 ISO8573)
- Controls water vapour and potential for microbial contamination
- Reduces Carbon Monoxide CO and Carbon Dioxide CO2 to safe levels
- Reduces Nitrogen Dioxide NO2 and Sulphur Dioxide SO2 to safe levels
- Safe track record in 1000's of onshore and offshore work scopes
- Non ATEX version also available
- Fully pneumatic operation up to 16 bar(g) working pressure
- Easy to deploy and operate using standard couplings
- Compact and Lightweight
- Robust PELI case design with wheels for easy manoeuvrability
- Deploy in less than 10 minutes

UK HSE ESTIMATES THAT 12,000 WORKERS
A YEAR DIE DUE TO PAST WORKPLACE EXPOSURES*
